SKILLS

- **Programming Language**: Java
- **Tools/Platforms:** HTML5, CSS, JavaScript, React.js, EJS, Node.js, Express.js, Firebase, MySQL, MongoDB, Git, GitHub, MS Windows 10, MacOS Sequoia
- **Soft Skills**: Problem-Solving, Team Player, Time Management, Adaptability

INTERNSHIP

Web Development Intern | Unified Mentor Private Limited Jun' 25-Dec' 25

- Contributed to real-world development projects within a collaborative engineering team.
- Built and optimized full-stack features using the MERN stack to enhance application performance and scalability.
- Integrated Firebase for secure authentication and backend services.
- Strengthened problem-solving and teamwork skills by collaborating effectively in an agile environment.
- Tech Stack: React.js · Node.js · Express.js · MongoDB · Firebase · JavaScript · HTML · CSS

PROJECTS

Veggie Bash- Ecommerce Platform Aug' 25

- Built a multi-vendor grocery marketplace enabling role-based access for users, sellers, and admins.
- Developed RESTful APIs using Node.js/Express, integrated Cloudinary for media handling, implemented JWT + secure cookies, and used MongoDB Atlas with Mongoose for scalable data storage.
- Delivered a secure, seamless shopping experience with optimized image uploads, improved frontend usability (Context API, validation, toasts), and efficient category-based product browsing.

Wanderlust- House Renting Website Nov' 24

- Created a full-featured house-renting platform allowing users to discover, filter, and review rental properties.
- Engineered the system using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and EJS, deployed on Render and Atlas with secure authentication and full CRUD modules.
- Achieved smooth property search with interactive maps, robust listings, and scalable backend performance.

Weather Website Aug' 24

- Designed a real-time weather information platform offering fast, responsive weather insights.
- Implemented using React.js, HTML, CSS, JavaScript, Node.js, Express.js, and an external weather API for live data.
- Delivered accurate, interactive, and visually clear weather updates across all devices.

Simon Says Game Jul' 24

- Created an interactive memory-based game challenging users to follow progressive color-and-sound sequences.
- Developed the gameplay using JavaScript, HTML, and CSS with dynamic UI elements and event-driven logic.
- Provided an engaging and immersive experience with smooth animations and increasing difficulty levels.

TRAINING

Think Design Prototype - Training on Design Thinking & Figma | LPU (CPE) Jul' 25

- Completed an intensive training program on Design Thinking and human-centered problem solving.
- Learned Figma for wireframing, UI design, and prototyping using empathy maps, journey maps, and usability tests.
- Designed a high-fidelity "Campus Find" lost-and-found app prototype using an iterative design workflow.

CERTIFICATES

- Alpha Plus 5.0 Data Structures & Algorithm with Quant -Aptitude Dec' 25
- NPTEL Cloud Computing May' 25
- Delta (Web Development) by Apna College Apr' 24
- Supply Chain Management by The Open University Oct' 23

ACHIEVEMENTS

Won Inter State Football Championship | Rajasthan Dec' 21

EDUCATION

- **Lovely Professional University** Phagwara, India
  Bachelor of Technology - Computer Science and Engineering Aug' 23 - Aug' 27
- **St. Annes Sr. Sec. School** Jodhpur, India
  Senior Secondary | Higher Secondary Apr' 18 - Apr' 23
